

Reading

We expect children to read five times a week at home and have their reading record signed by an adult. All children who read 5 times or more during the week will be entered into the school's book raffle on a Friday. Reading records will be looked at every morning. In Literacy we will begin by looking at *The Iron Man* by Ted Hughes. Later on in the assessment period we will be reading *Charlie and the Chocolate Factory* by Roald Dahl and linking it to machines and inventions. We will also be reading 'Until I Met Dudley' by Chris Riddell. In Year 4 the teaching of comprehension will take precedence over decoding words, although of course we will still support the children who need to develop these skills. We are using the Star Reading Assessments regularly to assess the children's decoding and understanding in reading. The results of these will be included in the ten weekly reports that the children bring home.

Writing

In writing the children will continue to focus on handwriting and SPAG (Spelling and Grammar). We continue to use the Nelson handwriting scheme to support the children's joined style. We will continue to think about the composition of our writing and how to edit and improve our work. We will be looking at writing, editing and redrafting our written work. We will be writing fictional and descriptive pieces about *The Iron Man*. We will write persuasive letters to Stan Lee about gadgets required for the Marvel characters. We will look at explanation texts and write imaginative explanations for everyday machinery. There will still be an emphasis on children punctuating their sentences correctly, using a range of sentence types and adventurous vocabulary.

Mathematics

Problem solving and reasoning will be the stimulus for most maths lessons. We will use it to engage the children in discussions about number, calculations, geometry and measures. We will be using Number Gym games to engage the children as maths starters (numbargym.co.uk Username :sjg Password welovemaths). We will be recapping skills constantly by asking the children what maths they 'see' around them. The principle focus of maths teaching in Year 4 is to ensure that pupils become increasingly fluent with whole numbers and the four operations and applying these using their reasoning and problem solving skills.

Science

In Year 4 we will be learning about 'Sound' and 'Electricity'. The children will learn how sounds are made, recognise that vibrations from sounds travel through a medium to the ear and find patterns between the pitch of a sound and features of the object that produced it. We will learn about electricity the children will identify common appliances that run on electricity, conduct a simple series electrical circuit and identify its basic parts. They will also learn about common conductors and insulators.

Trips and Visits

We are planning to visit to The Museum of Power in Langford.

St John's Green Primary

Learn to Live, Live to Learn

Art & Design

In art we will be looking at landscapes from the Industrial Revolution. The National Curriculum requires the children to become proficient in drawing and painting, using pencil, charcoal and paints for effect. In Design and Technology the children will have a design brief to design and create a vehicle made out of junk materials for a specific purpose. The National Curriculum requires the children to use their creativity to experiment with kinds of art and design.

Computing

In computing we will be using IPADS and Lego Movie Maker to explore STOP MOTION. The children will be using sequences, selection and repetition in the program; working with variables and various forms of input and output. They will create a Lego stop motion video (think Wallace and Gromit) and they will write a narrative to go with it.

Geography / History

Our theme is Machines and we will be looking at the Industrial Revolution and how the landscape of Great Britain changed. We will learn about different famous inventors and their inventions and the impact that these had. We will also be looking at where the inventors were in the world. In Geography we will look at human influences on areas and how different places in the world use or have access to industry. This will link to the National Curriculum's requirements for the children to understand economic activity and distribution of natural resources in the world.

Clubs

Look out for clubs advertised in the school newsletter. Our website www.st-johns-green.eschools.co.uk and Twitter feed @SJG_News give more information and upcoming events.

Music

In Music we will be following the scheme 'Charanga'. We will study a unit called 'Glockenspiel'. The children will begin recorder lessons on 13th January and have weekly lessons.

Physical Education

PE Days are Mondays (Cavalier), Tuesdays (Castle) and Wednesdays. In Dance, we will be looking at balance, coordination and sequencing movements through the BBC Iplayer programme 'Let's Dance'. In addition the children will be developing their listening skills, agility and basic balance skills. In hockey the children will learn about invasion strategies, defending and team play. Your child needs a full PE Kit labelled in a PE bag to keep at school on their peg.

Homework/Practise

We will continue to send out weekly spellings. These spellings are from the National Curriculum and need to be mastered. They will vary in difficulty and at times may be repeated, to ensure mastery by the end of the year. We will begin to send home times tables for testing. The children need to be fluent in all times tables and their division facts. Please remember that the children can access Number Gym at home (Username sjg Password welovemaths).

Personal, Social, Health and Economic Education

Our Core Values are on display around the school and we encourage our school community of pupils, parents, staff, governors and visitors to live these values. *Be Happy. Care for yourself and one another. Be Inquisitive - ask questions. Don't give up - Persevere. Be Successful. Always try to do your Best.* In class we will be using the JIGSAW scheme of work which focuses on 'Healthy Me'. UP'.

We will be out on the playground at the beginning and end of the school day. Please come and talk to us about any queries you may have. If you would like a longer discussion with us please make an appointment at the school office. There are regular Open Mornings and Open School Afternoons for you to experience parts of the school day at both our sites.
